## INTRODUCTION:

BANGLADESH is one of the biggest ready-made garment manufacturers in the world. In this connection ANGEL BUTTON LIMITED established in 2007 a fully automated computerized & specialized button manufacturing plant. We are trying to establish our quality of product to deliver the prominent garments industries, suppliers or nominated buying house with our best effort & efficiency. To save the world we are using state of the art & double standard formula disposal of waste material, our Environmental Clearance Certificate Number: 23-96124 and Identification Number: 132609. We are Oeko-Tex Standard 106 certified company.

We are following the findings for your satisfaction:

- Improve the quality
- Enhance the capacity as per requirement
- Spread the Market in Global Arena
- Improve the plant in standard position
- Connect with Social Responsibility
- Established the corporate facility
- Connect with Social Responsibility
- State of the art vision

Starting from the development process of the company & with each step towards developing a single button we are determined to established our self as the best in the field with our specialized machines and automated process eliminating any errors and satisfying the customers full filling their all needs.

## BUSINESS GOALS:

We want to go beyond success to significance. We want to make a difference. We want passion, excitement, and a sense of deeper purpose from our work. Our objective is to supply high quality products with competitive prices, prompt delivery and excellent services. We are convinced that joint efforts business between us will lead to mutual benefits.

- Improves quality & commitment in highest standard level to reach our goal.
- Facilitates coordination and information sharing both buyer and manufacturer to the participating organizations.
- Enhances the production capacity and efficiency to perform the order at a glance.
- Facilitates coordinated crime prevention and reduction.
- Provides high levels of data security.
- Provides an open, flexible, reliable technology base for the future.

## SCOPE

The Company has highly dedicated and competent professionals having exposure to button making techniques prevalent worldwide. In terms of service, the company and its all employee are committed and pay attention on the strict conformity to the delivery schedule. We better at their own customized for clients of the buttons. As long as you reference samples, drawings, or even a bold idea, we all can be customized for your production. At the same time, the welcome customers in the button on laser or print your own trademark or letters. From the beginning, we produce the first button, since then we have been in the research and development and the production button. We strive to achieve better quality, from raw material purchase, production process and product packaging, each procedure, we all strictly checks. Products strictly follow the ISO9001: 2000 and Oeko-tex standard106.
